

35 YEARS. INSPIRED BY LIFE.

COMPANY PROFILE

MICROMAR
INSPIRED BY LIFE

35 years. Inspired by life.

Being Inspired by Life is the best synthesis of Micromar's essence and values over its 35 years of history.

As a pioneer in the development and manufacture of neurosurgery products in Latin America, the company was founded in 1986 and continues today to carry the principles of its founder and CEO, engineer Antonio Martos Calvo, in its DNA:

*"Creativity, care and dedication in everything done.
After all, we make more than medical products:
we help make people smile again."*

Aimsystem Stereotactic System

The Aimsystem Stereotactic System TM03B has been on the market for over 30 years, allowing neurosurgeons to reach millimetric targets in the most varied regions of the brain with precision.

The Aimsystem Stereotactic System guarantees precise localization and approach of predetermined targets using images and is ideal for situations where reliability and precision are fundamental.

The Aimsystem can be used in various minimally invasive procedures, such as

biopsy, evacuation of haematomas and cysts, guided procedures – such as removal of tumors, and vascular surgery, among other diagnostic, general surgery.

Complex functional surgeries can also be done, such as implantation of deep brain stimulation

(DBS) electrodes, treatment of chronic pain, movement disorders and epilepsy.

Intuitive, the system has a full range of accessories that are integrated with the system and meet neurosurgeons' many needs.

Micromar also has a wide variety of cannulas developed especially for use with the Aimsystem Stereotactic System.

Integration with electrodes for functional surgery allows for ablation procedures to be done, along with the precision of stereotaxy. Check the catalog of Stereotactic Sets and get more information on these products.

EasyDrill® Cranial Perforators

WORLDWIDE DISTRIBUTED BY **Medtronic** *

Based on intensive research and development work, Micromar employed all of its tradition in neurosurgery to develop its new EasyDrill® Cranial Perforators.

- Efficiency allied with the protection of Autostop technology;
- Certifications in Europe (CE), registration in Latin America and release in the USA (FDA) – EasyDrill® Perforators are approved by the most respected certification agencies;
- Exclusive cutting geometry: Fast and smooth drilling;
- High-performance craniotomies;
- Anti-slip tip: Stability and precision;
- Safety: Individually tested;
- 4 different color-coded models, with different sizes;
- Designed for use with Hudson coupling.

HeadFix Cranial Fixation System HF02B

HeadFix is the Micromar's Cranial Fixation System, allowing for the best positioning of the patient's head according to neurosurgical needs.

Versatile, resistant and practical, HeadFix was designed to allow for easy fixation, done quickly and securely. It has the exclusive Twist System® device, offering 360° rotation, in addition to inclinations that provide a variety of approach options.

Compatible with most operating tables available on the market, HeadFix has a

pressure gauge that allows strength to be controlled, making the stabilization procedure safer.

It has a range of accessories, such as a Crossbar Adapter for Seated Position Procedures, and the exclusive Horseshoe System with Gel Support.

HeadFix Cranial Fixation System HF03B

Countless safety mechanisms. Rapid fixation. Smooth movements and adjustments. Complete. Smooth. Versatile. Every solution in one cranial fixation system. Headfix HF03B. Click and Fix.

Interactive areas on the Headfix are always orange-colored, in addition to allowing adjustments to be made without the need for physical force, as a result of intensive work by R&D. Moreover, all buttons are incorporated into the equipment to prevent residue from accumulating on the product and facilitating its cleaning.

Get to know some of the key attributes of the Headfix HF03B Cranial Fixation system:

Fine adjustment lock, exclusive dynamometer with load limiter system, easy force viewer, 4 integrated connections for attaching accessories (without the need to adapt additional parts), safety lock that allows one-handed opening, adjustable angle base (compatible with the market's chief tables), new quick lock lever and smart allen key!

TECHNICAL ASSISTANCE

Review and Maintenance of Products at your Disposal

We have a highly trained technical team, working with the goal of optimizing product performance.

Periodic maintenance of equipment is fundamental to guarantee product safety and efficacy.

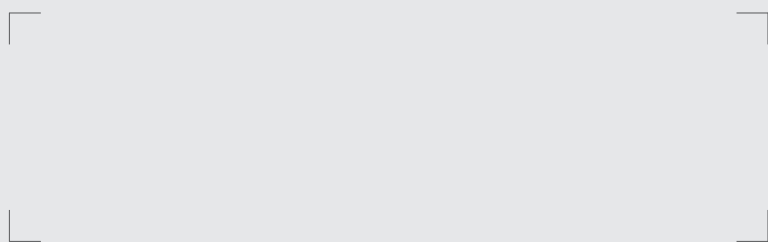

As manufacturers, we have modern facilities, trained professionals, know-how and agility in resolving technical issues.

With this service, we guarantee a long-term relationship with our customers and business partners.
